

Print this PDF and cut out the colored shapes. Consider double-sided printing (if you have the capability) for the square top. Staple the head band (page 2) together on one end, measure around your head, trim off any excess and staple the remaining end together. Fold flaps and adhere them to the bottom of the square top with either glue or tape. Create your own tassel with string, adhere to the printed button on the cap, and glue the cutout button on top.
