

Custom Shape Program

Want to be able to cut your school's mascot on your Cutout Maker?

How about a logo your student designed in class?

Our **Custom Shape Program** turns your logo, mascot, artwork, or unique design into a cut-ready shape for your Cutout Maker system, *saving you time* and eliminating the need for complex file conversion and cleanup.

How it Works:

1. Submit Your Artwork

JPG, PNG, PDF, or
high-quality image

2. We Create Your Shape

Our designer converts and
optimizes artwork for cutting

3. Receive Your File

Delivery method depends
on *Cutout Maker* model

Select Your System:

**Cutout Maker 2800
+ StudioVQ™**

Custom Shape Delivery Method

- Custom **SVG** file created by **VariQuest**
- **SVG** file provided to customer
- **Upload** to **StudioVQ** using the **MyShape®** feature
- Save and cut from **StudioVQ**

Requirements:

- [Cutout Maker 2800](#)
- [StudioVQ Account](#)
- [Premium Content Access](#)

**Cutout Maker 1800 +
VariQuest® Design Software**

Custom Shape Delivery Method

- Custom **shape** created by **VariQuest**
- **Installation** file provided to customer
- **Download** file and install shape in **VariQuest Design Software**
- Shape available and ready to use in software with your **Cutout Maker 1800**

Important:

Custom shapes created for the Cutout Maker 1800 are only available through the downloadable Cutout Maker software and cannot be used in StudioVQ.

Don't have the tools to create an SVG? We'll do it for you.

Pricing:

TYPE OF SHAPE	CATALOG #	PRICE
 Simple Custom Shape	CS001	\$175.00
 Complex Custom Shape	CS003	\$275.00
 Additional Design Styles	CS004	QUOTE

Have something more specific in mind than just a *basic shape*?

➤ For an additional fee, we can add a version of your Custom Shape designed in any of these 3 design styles:

Separate Shapes

Choose to have your image broken up into **two or more** separate cut shapes

for example:
Mascot + School Name

Vinyl Shapes

Designed specifically for use with **VariQuest® Vinyl Material**, this style more accurately reflects the original image, as less modifications are needed

for example: letters do not need to connect

Layered Shapes

Best for use with **VariQuest® Vinyl Material**, this option provides you with shapes for layering multi-colored projects

NOTE: Cutout Maker 1800 users will find this project in the **Collections** section of the VariQuest Cutout Maker Design Software

Questions?

To inquire about the **Custom Shape Program**, contact **VariQuest Customer Service** at:

1-800-328-0585 (ext 2) or customerservice@variquest.com

The cost of the shape is contingent on its complexity. **Please note** that very simple shapes will have a low price point while complex shapes will have a high price point. Additional shape design style fees are quoted in addition to the base Custom Shape price.

Our designer will provide a quote for the additional styles prior to the start of the design process.

We cannot guarantee that all submitted shapes can be made into a cut file - but we'll do our best!
